Subject: Final version

Dear editors,

Attached you will find the final version for our manuscript *Gene network simulations provide testable predictions for the molecular domestication syndrome*, which previous version (GENETICS-2021-304784) has been accepted pending minor changes (typos).

We enjoyed very much the stimulating scientific discussion with the editorial board and the reviewers, who were all professional and accurate with their criticisms of the previous versions of the manuscript. Addressing their comments was challenging, and we are sorry we had to make desicions about what to include or not in the manuscript among the reviewers' suggestions, which were all relevant.

On behalf of all co-authors, yours sincerely,

Arnaud Le Rouzic  
CNRS Researcher

A handwritten signature in blue ink, appearing to be 'A. Le Rouzic', with a long horizontal stroke extending to the right.
